Guest Speaker Chad Janetzke

Ever wonder how to "grow your faith"? Often we're told "be in God's Word". But for many of us that feels overwhelming! How do I start? What if I don't understand it? What if I get it wrong? Where's the instruction manual?!

This weekend instructions ARE included! Learn and practice some practical tips on how to use God's "Power Tool" - The Bible / His Word - how to read it on your own, with others, and sift through outside voices that could influence what God wants you to understand. Don't miss this chance to "Power Up Your Faith"!
